BayTSP Background

For more than ten years BayTSP has been the trusted leader in online intellectual property monitoring, copyright compliance, business intelligence and monetization services for the entertainment industry, software and videogame developers, the publishing industry and Fortune 500 companies.

- ➔ BayTSP has supported the largest content owners in the world with:
 - [Online Copyright Enforcement and Compliance](#)
 - [Business Intelligence and Metrics](#)
 - [Monetization](#)

- ➔ Client base includes all major U.S. studios and TV networks, record labels, software companies, book publishers, and video game publishers.

- ➔ BayTSP's flagship product is the Content Authentication Platform (CAP) utilizes content ID technology and bridges content owners with content distribution partners.
